## **AchieveWORKS Intelligences Recognized by SIIA as Best Instructional Solution in Non-Core Categories**

*Human eSources earns prestigious industry recognition*

FOR IMMEDIATE RELEASE

**Marlborough, CT** (June 17, 2019) Last Tuesday Human eSources®' AchieveWORKS® Intelligences was named the best Instructional Solution in Non-Core Categories of 2019 as part of the annual SIIA CODiE Awards. The prestigious CODiE Awards recognize the companies producing the most innovative Business and Education technology products across the country and around the world.

"We are extremely proud of this win and our talented team here at Human eSources," said Ross Dickie, President & COO. "Most importantly, we are proud that as part of our AchieveWORKS suite of assessments, AchieveWORKS Intelligences helps secondary school students from eighth grade through their senior year learn about themselves and their unique talents, perspectives and intelligences so they are better prepared for their postsecondary years."

The AchieveWORKS Intelligences assessment and results provide a more rounded view of students by looking at the following types of intelligence: emotional, bodily-kinesthetic, interpersonal, intrapersonal, linguistic, logical-mathematical, musical, naturalist, spatial and existential.

"The 2019 CODiE award winners represent the best of a new class of innovative products that are disrupting education and adding new efficiencies for educators and administrators. These exciting new products are opening doors for learners of all ages by developing and utilizing new technologies to respond to student and educator needs," said Jeff Joseph, SIIA President. "Congratulations to Human eSources and all our honorees!"

The winner announcement was made by the Software & Information Industry Association (SIIA), the principal trade association for the software and digital content industries, during the SIIA Ed Tech Conference & CODiE Awards in San Francisco. Thirty-four awards were given for products and services deployed specifically for education and learning professionals, including the top honor of the best overall Education Technology Solution.

A SIIA CODiE Award win is a prestigious honor, as each award winner was first reviewed by expert judges including educators and administrators whose evaluations determined the finalists. SIIA members then vote on the finalist products, and the scores from both rounds are tabulated to select the winners.

More information about the Awards is available at <http://www.siia.net/codie>.

Details about the winning products can be found at <http://www.siia.net/codie/2019-Winners>.

**About the CODiE Awards**
